#### My uncle and his farm

Uncle Tony has a farm. It is very large. There are four farmhouses and eight workers on the farm. They are very busy. They get up at seven o' clock in the morning. 3

'What is the first thing you do on the farm in the morning?' I ask Uncle Tony. 'I feed the chickens with corn,' he says. At noon, he picks up the eggs from the hens. In the afternoon, he feeds the sheep with grass. In the evening, he feeds the cows. What a busy day! 7

There are two cows on the farm. **They** make milk. Everyone on the farm can drink fresh milk. That is interesting! There are twenty ducks and thirty ducklings. They are cute. I want to visit my uncle's farm and look at them now!
